

Solemn Statement on Strictly Cracking Down on Unfair Competition

Dear Global Partners, Distributors, and Valued Customers:

Anhui Donghai Yuxiang Intelligent Equipment Technology Co., Ltd. (hereinafter referred to as “ADH” or “our company”), as a seasoned manufacturer in China’s press brake and laser cutting machine industry, has earned broad market trust over many years through strong technical expertise and honest business practices, and enjoys a certain level of brand reputation and recognition. Our company has lawfully obtained exclusive rights to relevant registered trademarks and holds complete and legitimate rights to brand-related technological achievements, promotional materials, and project cases.

In view of the recent discovery in the market of false statements such as “CN-HAWE (Anhui Hawei Intelligent Equipment Co., Ltd.) and ADH are the same company” and “CN-HAWE is a high-end sub-brand/upgraded brand of ADH,” which seriously infringe upon ADH’s brand reputation and mislead consumers, constituting acts of unfair competition, our company hereby solemnly issues the following statement to clarify the facts:

I. ADH (Anhui Donghai Yuxiang) and the brand owner of CN-HAWE are independent legal entities and have no relationship whatsoever. Statements such as “CN-HAWE (Anhui Hawei Intelligent Equipment Co., Ltd.) and ADH are the same company,” “CN-HAWE is a high-end sub-brand/upgraded brand of ADH,” “CN-HAWE has inherited ADH’s technology,” or “shares the same origin as ADH” are all false information, fabricated and disseminated without authorization by others (including former ADH employees, competitors, etc.).

II. Our company attaches great importance to this matter and has collected and secured preliminary evidence, including the identities of individuals who fabricated and disseminated the above false information and the channels through which it was spread. We hereby demand that the creators and disseminators of such false information immediately cease publishing and spreading related content, make a formal apology to our company for fabricating and spreading false information and engaging in unfair competition, and guarantee that they will no longer publish or spread similar false information or engage in any other unfair competition acts.

III. Our company reserves the right to pursue legal liability against the creators and disseminators of false information through reporting to public security authorities, initiating civil litigation, and other legal means, for spreading false information, infringing upon our brand reputation, engaging in false advertising, and committing acts of unfair competition.

IV. As a long-established large-scale manufacturer with comprehensive manufacturing capabilities, ADH has been deeply rooted in the industry for many years and possesses a complete and independent system for research and development, production, and quality control. All core technology patents are independently developed and exclusively owned by our company, enabling us to provide customers with the most reliable assurance in terms of equipment stability,

processing accuracy, and after-sales support. We kindly ask customers to identify the genuine ADH brand through the following methods:

1. Trademark identification: The equipment nameplate and system start-up screen display the “ADH MACHINE TOOL” logo.
2. Verification of official corporate account: For payment transactions, the payee should be Anhui Donghai Yuxiang Intelligent Equipment Technology Co., Ltd.
3. Official verification: If any salesperson claims “dual-brand operations” or an “internal relationship,” please directly call our official inspection hotline for verification.

ADH has always adhered to the business philosophy of “Quality First, Integrity as the Foundation.” We sincerely thank all sectors of society for their long-standing trust and support. We will continue to forge ahead and strive to repay everyone with higher-quality products and services.

Hereby declared!

Anhui Donghai Yuxiang Intelligent Equipment Technology Co., Ltd.
